

# State Fiscal Year 2011

## Federal Funding Report

### For the Licking County Area Transportation Study (LCATS)

---

This report was prepared in cooperation with the United States Department of Transportation's Federal Highway Administration and Federal Transit Administration, the State of Ohio Department of Transportation, and local communities (i.e. Licking County, the Cities of Newark and Heath, and the Villages of Granville and Hebron.)

The contents of this report reflect the views of the Licking County Area Transportation Study, which is responsible for the facts and accuracy of the data presented. The contents do not necessarily reflect the official view and policies of the State of Ohio Department of Transportation and/or the United States Department of Transportation.

Address: 20 South Second Street  
Newark OH 43055

### *Introduction and Background*

As required by the SAFETEA-LU, Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users 23 U.S.C. 124(j)(7)(B), 23 U.S.C. 135(g)(4)(B), 49 U.S.C 5303(j)(7)(B), and 49 U.S.C. 5403(g)(4)(B) enacted August 10, 2005 as Public Law 109-59, requires the cooperative development of:

“An Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which Federal funds have been obligated in the preceding year shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. The listing shall be consistent with the categories identified in each metropolitan transportation improvement program (TIP).”

LCATS traced the funding and implementation of surface transportation projects and programs in the past and reported the progress of projects in the Transportation Improvement Program (TIP). This report is intended to meet the requirements of SAFETEA-LU as noted above.

LCATS uses Ohio's State Fiscal Year 2011 (July 1, 2010 to June 30, 2011) for reporting.

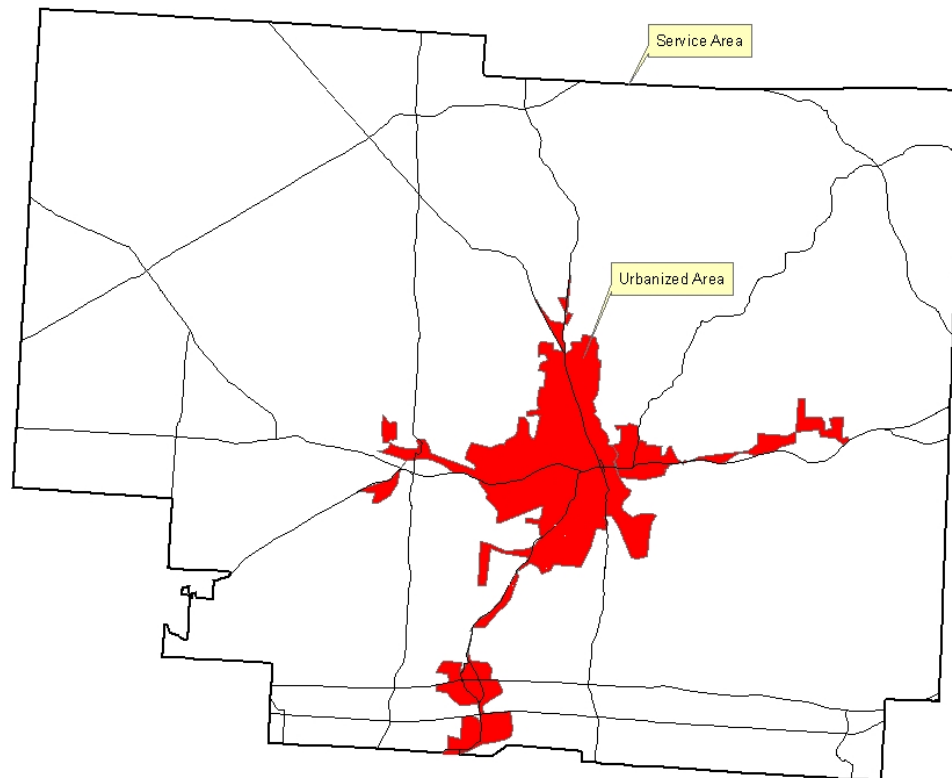

An obligation is the Federal government's legal commitment to pay the Federal share of a project's cost. An obligated project is one that has been authorized by the Federal agency and funds have been obligated. Projects for which funds have been obligated are not necessarily initiated or completed in that fiscal year, and the amount of the obligation will not necessarily equal the total cost of the project. For FTA projects, obligation occurs when the FTA grant is awarded. For FHWA projects, obligation occurs when a project agreement is executed and the State/grantee requests that the funds be obligated.

### *Report Organization*

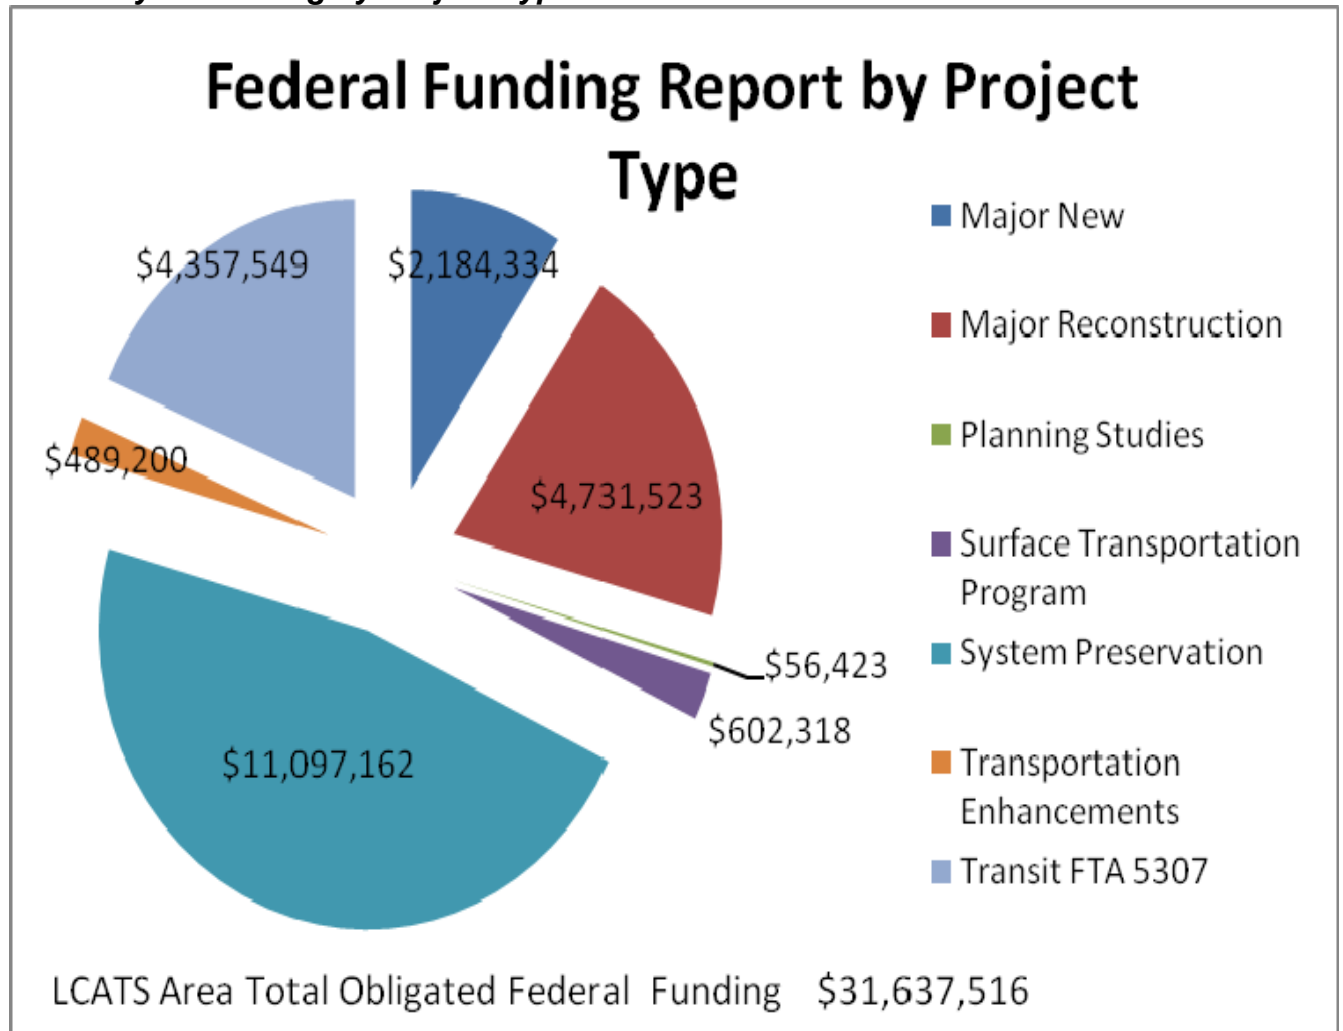

This annual report is intended to provide technical information that transportation professionals use in a format understandable by anyone interested in surface transportation improvements in the LCATS study area. To accomplish this, some key features should be noted.

- ❑ The projects are listed in a table resembling the project list in the TIP. The projects are sorted by Project Identification Number (PID.)
- ❑ The funding amount identifies only the federal funding authorized for the project in this specific reporting year and does not necessarily reflect the total project cost
- ❑ A copy of this report will be posted on the LCATS web page, [http://www.lcats.org/planning\\_documents/fedfundreport/default.asp](http://www.lcats.org/planning_documents/fedfundreport/default.asp)
- ❑ Should you need help with the many acronyms in this report, a glossary has been provided for you on the last page of this report.
