

ACKNOWLEDGEMENTS

LCATS Policy Committee and Staff would like to offer special a special “Thank You” to the following for their assistance and cooperation in developing Transportation Vision 2030:

The many citizens and public officials of the community that supplied input, comments, project ideas, information and support in the development of this long range multi modal transportation plan.

The LCPC staff for their dedication and patience in helping to compile data, information, mapping, editing and review of this document. Your help, support and teamwork are greatly appreciated.

The LCATS Technical Advisory Committee (TAC) for your long meetings to help develop, rank and review projects and develop draft goals and objectives that reflect the needs of the region.

The Mid-Ohio Regional Planning Commission (MORPC) for their efforts in performing the air quality analysis and network coding for our shared transportation model. We look forward to continued cooperation in the years to come.

The South Licking Watershed Conservancy District and Dan Bolger for providing information concerning the South Fork Licking Watershed Flood Control Project sponsored by the Natural Resources Conservation Service.

The Ohio Department of Transportation (ODOT), Office of Technical Services, Section of Modeling and Forecasting, for their work to complete the environmental justice analysis for the LCATS study area.

Rick Platt of the Heath-Newark-Licking County Port Authority for his assistance in providing freight and rail data and insight as it relates to economic development.

This document was prepared in cooperation with The United States Department of Transportation's Federal Highway Administration and Federal Transit Administration, the State of Ohio's Department of Transportation, and the local communities (i.e. Licking County, the cities of Newark and Heath, and the Villages of Granville and Hebron).

The contents of this report reflect the views of the Licking County Area Transportation Study, which is responsible for the facts and accuracy of the data presented. The contents do not necessarily reflect the official view and policies of the State of Ohio's Department of Transportation and/or the United State's Department of Transportation. This report does not constitute a standard specification or regulation.
